Welcome to Update Standards

In these pages you'll find details of new, revised, draft and withdrawn standards and publications from the last month.

Free expert help from our Knowledge Centre

Our information professionals will take the hassle out of your standards and subject searches by doing them for you. They can provide you with information on what a standard covers, carry out subject searches and even provide you with expanded information on what a standard covers through keyword searches, saving you a huge amount of time and effort. They'll also search for standards from over 200 standards organizations in 23 countries if that's what you need.

This service is available exclusively for BSI Members only. To find out more about what the Knowledge Centre can do for you, contact us today:

New amendment published for BS EN ISO 14971

BS EN ISO 14971:2019 has been amended. It contains the revised Annex ZA for the European MDR (EU/2017/745) and Annex ZB for the IVDR (EU/2017/746). There are no changes to the normative requirements of the standard. The previous Annexes ZA, ZB and ZC, which aligned to the EU MDD, AIMD and IVDD respectively, have been removed as the European Medical Devices Directives are no longer applicable.

A standard management system built with leading industry knowledge, trusted and used by businesses globally

British Standards Online Library (BSOL) is a simple online tool that acts as your standards management system. Access, view and download standards with multiple user access, across multiple sites, facilitating the distribution of the knowledge across your business.

British, European & International standards

BSOL contains British standards and international and European standards that have been adopted as British standards. It also includes ISO, EN, PAS, ASTM and IEC standards that haven't been adopted as British standards.

Tailored to suit you

BSOL can be tailored to suit your business needs. You can subscribe to our pre-built modules or build a personalized standards collection, ensuring that you have access to the standards you need.

Miss nothing with Tracked Changes

Track past, present and future changes. With access to historic and emerging standards, you can see the guidance that informed previous decisions, as well as changes that could shape your future moves.

Effective standards management

Manage all your standards in one place, enabling ease of access to the standards you need, and ensuring it's the latest version therefore avoiding costly delays.

Advanced search

Get the standards you need quickly with our search functionality. Search by standard number, status, date, industry sector, national committee, subject ICS category) or publisher.

Free and unlimited training

BSOL is easy to use – but our training team are here to give you extra support if you need it.

Password Manager

Password Manager gives BSOL customers easy access to our products by securely saving, remembering and auto-filling your password.

Adoption Gap

To make sure that our customers can comply with and take advantage of the latest standards content, all "pure" ISO and IEC standards are available within BSOL for customers who also take international or European standards as an addition to their subscription.

These are only some of the unique features BSOL has to offer to help reduce risks and instil trust with your clients.

“BSOL gives easy access to standards we need to use regularly but also enables us to find other standards of interest to us.”

Inspiring trust for a more resilient world.

BRITISH STANDARDS

The following British Standard publications are available from BSI Customer Services (see 'How to order' on page 2).

The publications listed below are new and revised British Standards that were made available last month.

An existing BSI publication bearing a number identical to one announced below is automatically withdrawn unless stated otherwise.

In all other cases of supersession, details are given and a corresponding entry appears in the 'British Standards withdrawn' section.

BRITISH STANDARD IMPLEMENTATIONS WILL BE SUPPLIED IN PREFERENCE TO EUROPEAN OR INTERNATIONAL STANDARDS, UNLESS OTHERWISE REQUESTED.

Please order by the British Standard reference not the ISBN number.

BS 2000 series standards are also available from:-

BS EN PUBLICATIONS

The following are British Standard implementations of the English language versions of European Standards (ENs).

BSI has an obligation to publish all ENs and to withdraw any conflicting British Standards. This has led to a series of standards, BS ENs, using the EN number.

Note: The date referenced in the identifier is the date of the European standard.

Lead your market by creating a fast-track standard

A sponsored fast-track standard defines good practice for a product, service or process. It can be created by the private or public sector and is a powerful way to establish the integrity of an innovation or approach.

Fast-track standards are:

- Sponsored by private and public sector organizations
- Developed by a steering or advisory group of stakeholders, selected from relevant fields and led by BSI
- A fast-track path to standardization
- A route to international standards
- Co-branded with BSI

What can a fast-track standard do?

- Raise your profile by having your brand associated with BSI
- Influence the marketplace by improving the quality of an entire industry
- Drive growth and innovation by creating solutions backed by industry consensus
- Show leadership by initiating standardization in the required area

Find out how creating a fast-track standard could benefit your organization and industry: <https://bit.ly/3rjXuGs>

FREE WEBINAR

NEW - Built environment monthly webinar - Spring cleaning your product information

Webinar Date: 22 February 2022 **Time:** 12:00 - 13:00 (UK time)

With spring in the air, this free webinar will focus on the Code for Construction Product Information (CCPI). We'll be reminding construction product manufacturers about the "how" and "why" of

applying the CCPI to "spring clean" and raise the standard of their product information, as well as introducing BSI Identify, which supports some CCPI requirements.

CORRIGENDA TO BRITISH STANDARDS

Most amendments are not issued separately. Those that make significant changes to a standard are incorporated into the standard which is reissued (see 'Updated British Standards'). British Standards which have been corrected via corrigenda are available on request, free of charge to past purchasers of the standard. All amendments and corrigenda to date of despatch are included within any main publication when ordered for the first time.

The following corrigenda to British Standards were made available last month.

BRITISH STANDARDS REVIEWED AND CONFIRMED

It is BSI policy for every standard to be reviewed by the technical committee responsible not more than five years after publication, to establish whether it is still current and, if it is not, to identify and set in hand appropriate action.

Confirmation indicates the continuing currency of a standard.

Where any standard in this list has been amended since publication, confirmation includes all amendments published to date. Reference to a particular amendment indicates that it is published concurrently with the confirmation.

NEW WORK STARTED

The reference number of the committee responsible for each item of new work started is given after each entry.

Where a work item has the temporary designation "EN XXXX", it has not yet been allocated a standard number by the European standards body.

All national standards (BS XXXX), apart from corrigenda, will be issued for public comment in due course. All drafts for public comment are available at <http://drafts.bsigroup.com>, where you can register and comment free of charge.

DRAFT BRITISH STANDARDS FOR PUBLIC COMMENT – NATIONAL BRITISH STANDARDS

The following national standards have all been issued, or are about to be issued, for public comment. You may comment online on any British Standard of national origin using the Standards Development Portal. You can register to the Standards Development portal at <https://standardsdevelopment.bsigroup.com/> This service is free of charge.

Deadlines for receipt of comments on each of the individual drafts can also be found at <https://standardsdevelopment.bsigroup.com/>

If you would like to receive these drafts in hard copy format, they are available for a fee from BSI Customer Services (see 'How to order' on page 2).

DRAFT BRITISH STANDARDS FOR PUBLIC COMMENT – ADOPTIONS

You may comment online on draft standards issued by BSI, ISO, IEC, CEN and CENELEC at the Standards Development Portal. The purpose of the website is to enhance access to Drafts for Public Comment for the wider community, make comments more visible and move into collaborative working practices. You can register to the Standards Development portal at <https://standardsdevelopment.bsigroup.com/> This service is free of charge.

If a particular draft you are looking for is not included, please contact BSI Customer services to enquire on the availability of the standard.

All draft British Standards are available in hard copy format from BSI Customer Services (see 'How to order' on page 2). Most drafts are charged at £10.00 to members and £20.00 for non-members.

Larger draft documents are charged at a higher price according to the number of pages and, are priced individually below.

Comments on all Draft British Standards are welcome and should be sent to Debbie Stead, Associate Director of Operations, BSI Group, 389 Chiswick High Road, London W4 4AL.

Draft standards may be modified before adoption and issue as British Standards

CEN EUROPEAN STANDARDS

EUROPEAN RATIFIED TEXTS

The documents listed below have recently been issued by CEN but have not yet been published as BS ENs. BSI has an obligation to adopt all ENs and to withdraw any conflicting British Standards (BSs) or parts of BSs. The following will be implemented as BS ENs or as amendments to BS ENs shortly. Notification of their implementation will be given in the BS EN Publications section of the relevant edition of Update Standards.

Why it's important that you conduct tensile testing of metals

Tensile testing helps generate a complete profile of a material's tensile properties. This shows how the material will react when forces are applied. Tensile testing is therefore critical to producing a safe, high-quality product.

To help determine the tensile strength of metallic materials we've updated **BS EN ISO 6892-1:2019 Metallic materials. Tensile testing - Method of test at room temperature.**

This international standard is one of four which cover tensile testing of metallic materials.

Update yourself on the improvements to our video surveillance system code

Are you aiming to operate a secure video surveillance system (VSS) that could be eligible for a police response? If so, **BS 8418:2021 Design, installation, commissioning and maintenance of detector-activated video surveillance systems (VSS). Code of practice** can help you a great deal. This standard sets out recommendations on the design, installation, commissioning, maintenance and operation of detection-activated VSS.

ISO PUBLICATIONS

It is BSI policy to supply the UK version of all adopted standards, which are published as British standards, unless otherwise requested.

The following ISO publications are available from BSI Customer Services (see 'How to order' on page 2).

ISO 527-4:2021

Plastics. Determination of tensile properties. Test conditions for isotropic and orthotropic fibre-reinforced plastic composites

£99.90 members, £111.00 non-members

PRI/42

Will be implemented as an identical British Standard

ISO 1352:2021

Metallic materials. Torque-controlled fatigue testing

£99.90 members, £111.00 non-members

ISE/101/6

Will be implemented as an identical British Standard

ISO 2566-1:2021

Steel. Conversion of elongation values. Carbon and low-alloy steels

£99.90 members, £111.00 non-members

ISE/100

Will be implemented as an identical British Standard

ISO 2566-2:2021

Steel. Conversion of elongation values. Austenitic steels

£99.90 members, £111.00 non-members

ISE/100

Will be implemented as an identical British Standard

ISO 3382-3:2022

Acoustics. Measurement of room acoustic parameters. Open plan offices

£63.90 members, £71.00 non-members

EH/1/6

Will be implemented as an identical British Standard

ISO 3501:2021

Plastics piping systems. Mechanical joints between fittings and pressure pipes. Test method for resistance to pull-out under constant longitudinal force

£27.90 members, £31.00 non-members

PR/88/4

Will be implemented as an identical British Standard

ISO 4384-2:2022

Plain bearings. Hardness testing of bearing metals. Solid materials

£27.90 members, £31.00 non-members

MCE/12

Will be implemented as an identical British Standard

ISO 4657:2022

Assessment specification of coalbed methane resources

£42.30 members, £47.00 non-members

PT/1/5

Will be implemented as an identical British Standard

ISO 4833-1:2013/A1:2022

Microbiology of the food chain. Horizontal method for the enumeration of microorganisms. Colony count at 30 °C by the pour plate technique

£11.70 members, £13.00 non-members

AW/9

Will be implemented as an identical British Standard

ISO 4833-2:2013/A1:2022

Microbiology of the food chain. Horizontal method for the enumeration of microorganisms. Colony count at 30 °C by the surface plating technique

£11.70 members, £13.00 non-members

AW/9

Will be implemented as an identical British Standard

ISO 6405-1:2017/A1:2022

Earth-moving machinery. Symbols for operator controls and other displays. Common symbols

£11.70 members, £13.00 non-members

B/513/1

Will be implemented as an identical British Standard

ISO 6588-1:2021

Paper, board and pulps. Determination of pH of aqueous extracts. Cold extraction

£42.30 members, £47.00 non-members

PAI/11

Will be implemented as an identical British Standard

ISO 6588-2:2021

Paper, board and pulps. Determination of pH of aqueous extracts. Hot extraction

£42.30 members, £47.00 non-members

PAI/11

Will be implemented as an identical British Standard

ISO 7213:2021

Pulps. Sampling for testing

£27.90 members, £31.00 non-members

PAI/11

Will be implemented as an identical British Standard

ISO 7876-5:2021

Fuel injection equipment. Vocabulary. Common rail fuel injection system

£27.90 members, £31.00 non-members

MCE/22

Will be implemented as an identical British Standard

ISO 7905-2:2021

Plain bearings. Bearing fatigue. Test with a cylindrical specimen of a metallic bearing material

£27.90 members, £31.00 non-members

MCE/12

Will be implemented as an identical British Standard

ISO 7010:2019/A4:2021

Graphical symbols. Safety colours and safety signs. Registered safety signs

£11.70 members, £13.00 non-members

PH/8/1

Will be implemented as an identical British Standard

ISO 8100-34:2021

Lifts for the transport of persons and goods. Measurement of lift ride quality

£63.90 members, £71.00 non-members

MHE/4

Will be implemented as an identical British Standard

ISO 8130-4:2021

Coating powders. Calculation of lower explosion limit

£27.90 members, £31.00 non-members

ST/1/0

Will be implemented as an identical British Standard

ISO 8178-2:2021

Reciprocating internal combustion engines. Exhaust emission measurement. Measurement of gaseous and particulate exhaust emissions under field conditions

£128.70 members, £143.00 non-members

MCE/14/-3

Will be implemented as an identical British Standard

ISO 8222:2020/A1:2022

Petroleum measurement systems. Calibration. Volumetric measures, proving tanks and field measures (including formulae for properties of liquids and materials)

£11.70 members, £13.00 non-members

PTI/12

Will be implemented as an identical British Standard

ISO 8996:2021

Ergonomics of the thermal environment. Determination of metabolic rate

£99.90 members, £111.00 non-members

PH/9/-1

Will be implemented as an identical British Standard

ISO/IEC 9594-2:2020/A1:2021

Information technology. Open systems interconnection. The Directory: Models

The Digital Revolution in Regulatory Document Management

Work smarter with the only platform designed by regulatory experts to manage your compliance process

Digital tools that save time and money

Compliance Navigator holds over 4,500 documents essential for medical and IVD device compliance. With true multi-user access, it's available to your entire team, simultaneously.

- **Alerts to changes**

Receive alerts as standards* change, so you can plan accordingly.

- **Track changes**

Find it easy to see what's new, with 'red line' changes between versions.

- **A comprehensive source**

Access over 4,500 internationally recognized Standards, the full text of the new Medical Device and IVD Regulations, MDSAP Regulations.

- **Profiles and Templates**

Create and export regulatory profiles and templates, so you have the information you need in one place – right down to what's relevant to each aspect of development.

- **Expert commentary**

Interpret new standards correctly and assess the impact of changes on specific devices as our experts provide context and guidance.

- **MDR/IVDR and MDSAP Smart Support**

Understand how the regulations apply to your business and devices.

* All standards including third-party standards ASTM, AAMI, CLSI – alerts for current to withdrawn status. In addition, for all BS and British-adopted standards – alerts on upcoming changes when a project for a new or revised standard is underway, from proposal to approval and publication. Access to the Draft version when the project is at the Draft for Public Comment stage.

Proceed with confidence

Use the most authoritative source of medical device standards information on the market. With over a century of experience, BSI is trusted by thousands of companies worldwide to help them stay compliant and grow their businesses.

'It's improved our system from all of those perspectives - cost, efficiency, quality, compliance.'

VP of Quality and Regulatory Affairs, USA

'Once you have used it, you will find it difficult to go back.'

Stay up to date with the way you perform penetrant testing

Anyone who conducts penetrant testing will benefit from adopting **BS EN ISO 3452-1:2021 Non-destructive testing. Penetrant testing. General principles.**

This standard is the updated international standard specifying a method of penetrant testing used to detect discontinuities and giving requirements for process and control testing.

This 2021 edition is a complete technical revision of the 2013 standard, undertaken to ensure that the document stays in line with current industry practices.

Free help from our Knowledge Centre

Let us take the hassle out of your standards and subject searches. We employ a team of information professionals, just for Members. They're dedicated to answering your questions on BSI standards and helping you with your standards-related queries. They will:

- Provide scope and content information on any standard
- Find standards through subject searches
- Give you expanded information on what a standard covers through keyword searches
- You can view full standards online or in printed format in our Members' Reading Room in London.

Our information and searches cover current and withdrawn British Standards as well as standards from over 200 standards organizations in 23 countries.

Contact the Knowledge Centre today to find out how we can help you with your standards searches. This service is available exclusively for BSI Members.
